The Building Official may extend the time for action for a period not exceeding 180 days upon written request by the applicant showing that circumstances beyond the control of the applicant have prevented action from being taken.

Any application not issued prior to the effective date of any new law, statute, provision, ordinance, or any revision or update to the same, that directly or indirectly applies to code regulation and enforcement, will be deemed void, and a new application shall be made, and new fees shall be calculated and collected at the rates currently in effect at the time of the new application.

CBC Section 105.5 / CRC Section R105.5 Permit Expiration (as amended by Rancho Cordova City Code) - Every permit issued by the Building Official under the provisions of the Technical Codes shall expire by limitation and become null and void if the building or work authorized by such permit is not commenced within the prescribed time frame, as determined in Table 105.

Before such work can be recommenced, the permit shall be renewed. The fee for renewal shall be equal to one-half the amount currently required for a new permit for such work, provided no changes have been made or will be made in the original plans and specifications for such work; and provided further that such suspension or abandonment has not exceeded the prescribed time frame, as determined in Table 105.

In order to renew action on a permit after the building or work has been suspended or abandoned, or the permit has been expired for a period exceeding the prescribed time frame as determined in Table 105, the permittee shall pay a new full permit fee based on the currently enforced fee schedule. Permits deemed to have been expired shall be subject to all permit related fee increases, new fees and code requirements currently in effect at the time of permit renewal as applicable, subject to the discretion of the Building Official.
