

LOOKING FOR WAYS TO CREATE OR EXPAND YOUR OUTDOOR SPACE?

On Monday, July 13, Governor Gavin Newsom announced that all counties on the State's County Monitoring List for three consecutive days, including Sacramento County, are required to close indoor operations for certain industries and activities. On July 14, Sacramento County released a revised Public Health Order that is in alignment with the Governor's announcement.

The City of Rancho Cordova wants to work with you to:

- Allow temporary closure of certain spaces at your business site, such as parking areas, drive aisles, etc. to create additional outdoor space so that your business can remain open.
- Not count this additional outdoor seating towards city parking requirements.
- Review your outdoor operations plan free of charge.

How Do I Apply or Learn More?

If you're interested in creating outdoor operations space for your business, please contact our Outside Operations team at outsideopps@cityofranchocordova.org or contact:
